Finding cures and improving care
in South Australia's Hospitals.

HomeLottery.com.au

Did you know there are over 430,000 public hospital admissions in South Australia each year? That equates to 1 in 4 people in our community.*

Your purchase of tickets in the Hospital Research Home Lottery provides funding for research and improving patient care, ensuring you and your family receive the very best treatment and care available in our hospitals.

Your support is lifesaving.

Because of you, the Royal Adelaide Hospital is now equipped with a Clinical Trials Centre conducting world-class patient trials in vital research areas such as lung cancer, stroke, bowel disease and dementia.

Because of you, the Lyell McEwin Hospital now have their own purpose-built audiology booth, which will help patients such as young children with conditions such as painful and recurrent burst ear drums.

Because of you, the palliative care nurses at The Queen Elizabeth Hospital have access to new vehicles allowing them to visit families in need, providing their loved ones with the care they deserve in the comfort of their own home.

Because of you, more South Australians who live day-to-day with chronic pain from pancreatitis will undergo lifesaving auto-islet transplants this year, a procedure that is currently too costly for these patients and their families.

Because of you, country cancer patients and their families accessed a 'home away from home' in 2017, staying at the Under our Roof homes in Woodville West to be closer to available treatment in local hospitals.

Because of you, The Hospital Research Foundation can provide more funds for lifesaving research and patient care for the many South Australians admitted to hospital this year.

Because of you, we can bring hope.

*In 2015-16, there were 438,357 admissions into South Australian public hospitals. Sourced from My Hospitals: Patient admissions 2015-16, Australian Institute of Health and Welfare and 2016 Census: South Australia, Australian Bureau of Statistics.
